

H-Series Polymer Concrete is produced using a precise dry mix of select gravel, and sand, which is bound with resin and a fiberglass fabric. This mixture and our new manufacturing process results in high flexural and tensile strength yet maintains the lowest weight.

H-Series Unit • Body: POLYMER CONCRETE • Cover: POLYMER CONCRETE

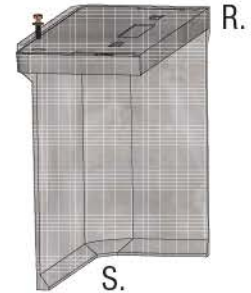

Medium Duty
Non-deliberate Traffic

Heavy Duty
Non-deliberate Traffic

Tier 15 & 22*

- Q. Heavy Duty Diamond Plate Steel Cover
 - Standard Hex/Penta cover anchor hardware.
 - Custom padlock available on sizes 13"x24" and above.
- R. Solid Polymer Concrete Cover
 - With Hex, Penta, Coil, or Vandal Resistant Bolt Anchor hardware.
 - Cover rated to multiple industry specifications including SCTE, WUC, and AASHTO.
- S. Polymer Concrete Body
 - Polymer Concrete units are 30% lighter weight than similar concrete sizes.
 - Polymer Concrete material reduces shipping costs and provides longer product life.

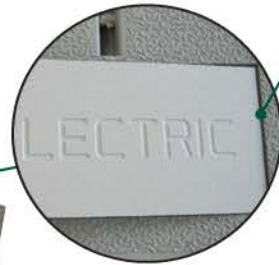

Products are rated by the lowest component rating. A tier 15 cover with a tier 22 body is rated tier 15. A tier 22 cover with a tier 22 body is rated tier 22.

Material	Model	Size (LxW)	Shape	Wall Type	Depths	Design Load	Tier

					36" 48" 72" 84" 96"		

**Tier 15 Design Load: 15,000 lbf Tier 22 Design Load: 22,500 lbf
Blue - Stacked Body Units (Stacked body units are currently not rated)

Components and Options

OPTIONAL RECESSED AREA & MARKING PLATE:

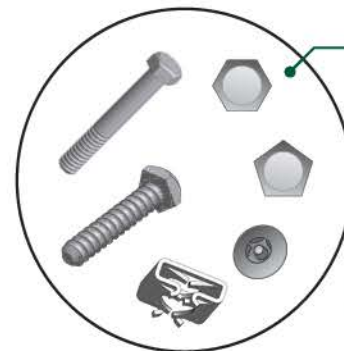

Lids come standard with pressed marking identification and offered with optional marking plate flexibility.

EMS MARKERS

CABLE RACKS:

Available for H-Series boxes to create a custom fit for your application.

HARDWARE & SECURITY:

Hex Head, Penta Head, Coil Bolt, and Vandal Proof Bolt all offer different levels of security.

VARIETY OF SIZES:
From 9" in Diameter to 48" x 48"; The H-Series has you covered for any need.

CUSTOM OPTIONS:
Mouseholes available
